(Certificates Available)

Sector-33, Gurugram

EDUCATION

Jaypee Institute of Engineering and Technology
B.Tech from Computer Science
9.5 CGPA

July 2023 - 2027
ongoing (2nd year)

SKILLS & CERTIFICATIONS

Languages

Python | C | C++ | HTML | CSS | JavaScript | ReactJs

Frameworks & Libraries

TailwindCSS | NodeJS | ExpressJS | MongoDB
Scikit-Learn | Tensorflow | OpenCV | Matplotlib | Seaborn | Pandas | Numpy | Scipy

Tools & Software

VS Code | Git | Github | Jupyter Notebooks

Others

Arduino | ESP | RaspBerryPI | Fusion360 |

PROJECTS

SmartQuizArchitect

Developed SmartQuiz Architect is an AI-driven platform built by our team to help users easily generate, customize, and join quizzes with smooth backend and frontend integration.

- Built the backend and core logic for an AI-based quiz generation app. Worked on setting up quiz creation workflows, user authentication, and smooth data handling to support a fast, responsive frontend experience.

TechStack : React.js | tailwindcss | NodeJs | Ollama | Firebase

Chef Claude

Developed an AI chat bot that suggests recipe based on the ingredient provided by the user.

TechStack : React.js | tailwindcss | Hugging Face Inference API

Ayojan

Co-created Ayojan, an event management platform where users can book venues and professionals (such as decorators, caterers, etc.) together with a team.

- The platform featured fully functioning User Authentication and Booking system, Payment Methods (UPIs, Card etc), emailing service. Deployed on Vercel.

TechStack : Django | Python | HTML | CSS | JAVASCRIPT

ACHIEVEMENTS

Solved 70+ Question on CodeForces [rating 850]

Qualified for Round 2 @RIDEHackJIIT

EXTRACURRICULAR ACTIVITIES

Coordinator @RosPinoT Club : Led workshops on programming and Machine Learning Concepts for 30+ juniors.

Development Team @Techfest : Built key modules for college tech fest website.

Blog Writing @Medium & @Linkedin : explaining ML Algorithms and general Tech Talks.
